I'll try to get to that after the Town Board and County Commissioners meeting.

Cynthia – When do you think we can add a couple of pics?

Thanks, Steve. I'll have Bill make the change. I'm guessing this won't be the last tweak we'll need as we start using the Web site.

Cynthia – Hindsight is always great. I strongly suggest that we add the words “study area” to the first sentence of the Site Description section, so it would read as follows:

The site study area includes mining-impacted land and surface water in the UA watershed in San Juan County, Colorado, including private, federal and state lands, as well as the town of Silverton.

Hopefully, this will avoid any confusion about whether EPA has predetermined that the town is or will be part of a listed site.

Thanks,
Steve
